

“GREEN VERTICAL GARDEN COMPANY”

1 *Hotel* Central park 1414 Avenue of the Americas , New York

Greening the world one wall at a time

QUICK & EASY TO INSTALL ON ANY VERTICAL SURFACE

The original design

The 1 hotel is built with a sustainable design created by architects, landscape architects, and decorators sharing an ecological vision. Interior spaces were built with reclaimed and natural materials. For example, the door of some of the hotel's main entrances are all composed of trunks of wood recovered from Hurricane Sandy, which hit the city in 2012. ...

The **GREEN VERTICAL GARDEN** - BESPOKE system was chosen for it's simple, quick & inexpensive method of installation, easily undertaken using less expensive labour. The Stainless Steel weldmesh is attached to the face of the building, then the irrigation is installed. When all is complete the ready planted containers are attached to the weld mesh. This wall was covered with 10000 plants.

INSTALLED BY USA SOLE DISTRIBUTORS for The **GREEN VERTICAL GARDEN COMPANY**
